

Excerpt from General Terms and Conditions

(Complete conditions see www.gntransport.se)

General

All transports are carried out in accordance with the following:

- What is agreed in the quotation with the customer.
- The conditions stipulated here.
- Nordic Freight Forwarders Association's General Regulations (NSAB 2000).
- The CMR Terms.

Transport Weight

The transport weight is calculated as below:

	1 FLM:	1 Pallet:	1 m3:
<u>Sweden</u>	1950 kg	780 kg	280kg
<u>France</u>	1850 kg	740 kg	333 kg

When the actual weight exceeds the bulk weight, the price is based on the actual weight.

Long Cargo

For the calculation of the transport weight for long cargo the following applies: 2.4 m and upwards, heavier than 35kg = 225 kg/running metre.

Prices

Unless otherwise stated, prices do not apply for temperature-controlled transport.
